This Week...

In English we have completed some reading assessments but we have also continued to write our extended stories. We have been transferring the stories to the laptops and learning to use editing tools to develop and improve the accuracy of our writing.

During Maths we have completed some assessments in arithmetic and reasoning. We have also started to look at shape and the way we categorise and describe shape. We have met a lot of new vocabulary—polygon, parallel and perpendicular are just a few.

In Science we investigated air resistance. We designed and conducted a fair test. We recorded results and reached conclusions about the affect of air resistance. We considered when resistance can be useful or not.

We also harvested our potatoes !

Ambassadors of the Week

Kieson — for explaining and giving examples of metaphors during guided reading .

Faye P— for giving clear mathematical definitions of terms.

Information for Families

Have a happy half term break. We return on Tues 6th June. The 8th June is a Polling Day and on the 9th we visit Fullbrook
