This Week....

In English we have been transferring out Rob-in Hood stories to the laptops and proofreading and editing at the same time. We have been focusing on trying to improve the variety of the structure, grammar and vocabulary.

Our Maths has been about solving problems involving angles. We have been using our knowledge of angles and properties of rectangles to calculate missing angles.

In Computing, we extended our use of Flowol to program 2 outputs. We programmed two sets of traffic lights to control traffic across a narrow bridge. We used some LEDs to test and debug.

Feudalism was the focus for history. We played a short role play to discover how medieval society was structured. We realised that it was very similar to the structure of Ancient Egypt.

Lots of us learned a new sport in PE - Orienteering. We had to solve problems using maps.

Ambassadors of the Week

Nitya — for showing respect and contributing thoughtfully in RE

Gracie — for showing resilience to debug her Flowol program.

Information for Families

Each child needs an A4 piece of card for next Thursday.

Friday 6th—School Disco
