

# YEAR 5 LEARNING NEWS

Ongar Place  
Primary School

Spring 29th March 2019

## Some pictures

## Next Week

We will be learning

English — Poetry &  
Parenthesis

Maths — Multiplying fractions by whole  
numbers

Geography— River processes—erosion, dep-  
osition and transportation

DT—evaluation of our pasties

## This Week....

In English we have been proof-reading and editing our character portraits of Macbeth or Lady Macbeth. We've tried to be more accurate with spelling, punctuation and grammar as well as develop our use of vocabulary and use of parenthesis.

Maths has been about subtracting fractions. We have been consolidating ideas about common denominators and solving problems. Some are really complicated!

In RE, having learned about the traditional Easter story, analysed the gospels, thought about ideas of sacrifice we finally considered the difficult idea of why Jesus had to die. There were some interesting points raised.

On Thursday we had an exciting dance session at Jubilee. We've loved having these.

## Ambassadors of the Week

**Adam** - who has been working out some complicated fraction problems.

**Josh N** — who has really developed his character portrait.

## Information for Parents

Next Friday, we finish at 1:30.  
Happy Easter.
