

Learning Highlights

As part of our English, the children have been writing their own nonsense stories. They went on a homophone hunt to find pairs of words to include in their stories.

In maths we have been focussing on shape this week and the children have been using their knowledge of 3D shapes to create some Christmas decorations. We have also revisited percentages and played some games to reinforce our understanding.

Our Geography topic this half term has been 'Is Fair Trade Fair?' The children have investigated what life is like for banana farmers in St Lucia and compared independent farmers with Fairtrade farmers and created posters to show the differences.

Christmas Jumper Day

Tuesday 18th December—children can wear a Christmas jumper for a donation towards 'Children of the Dump' charity. Normal school uniform underneath please.

Issue No 15 Autumn Term

Learning focus

The children have had great fun making Christmas cookies. Thank you Mrs Tuttle for helping!

Star of the week goes to Rosie. She has worked so hard on her nonsense story and had great fun adding lots of homophones and puns to add confusion. Really well done Rosie.

Information for Parents

Dates for the diary

18th December—Christmas lunch and Christmas jumper Day
19th December—End of Term 1.30pm
3rd January—New Term Starts
13–15th February—High Ashurst Trip
