

YEAR 6 LEARNING NEWS

Learning Highlights

Another week has flown by in year 6. The children have all been working very hard and are enjoying booster groups.

In literacy we have continued to study 'Wonder'. There have been some wonderful discussions about being right or being kind and the children have all written their own precepts for life.

Thursday and Friday this week have been our Science Days. On Thursday afternoon the children took part in an amazing workshop making elastic racers! Huge well done to Ollie, Amy and Kimi who made the winner car.

Today the children will have spent time doing 4 different investigations—more details next week!

Issue No 2 Spring Term
19th January 2018
01932 842785

This week in PE the children have continued to work on their dance routines. They have been working in small groups to develop sequences linked to James Bond.

The class have been split into 2 groups for outdoor games with half the class continuing with tag rugby and the other half doing netball. Over the next term there will be interschool competitions for both rugby and netball and we hope that many of the children will be able to take part.

Star of the Week this week goes to Aaryan. As always he has extra hard in maths and has explained methods for problem solving clearly to others. Well done Aaryan.

Information for Parents
