

YEAR 6 LEARNING NEWS

Learning Highlights...

A more 'normal' week in year 6 this week. The children have been working really hard on their maths and literacy. We have been focussing on subtraction in maths and considered different mental strategies as well as formal column method. In literacy we have continued to read 'Holes' and been investigating how the author gives us ideas about a character without writing detailed descriptions of them.

As well as rugby we have been developing our hockey skills. We have been practising how to keep the ball under control and how to make short accurate passes. It was not as easy as we thought!

Well done to Abigail, Freya H, Callum and Alani who went to Cobham Rugby Club to take part in a Tag Rugby festival. They really entered into the spirit of the games and represented the school really well.

Issue No 7 Autumn Term

Learning Highlights

This week in science we used balloons to measure our lung capacity. It was interesting to see the different size balloons we blew in one breath.

Star of the Week.

This week Star of the Week goes to Caitlyn. She has worked hard and has shown a really mature attitude to her learning. Well done Caitlyn.

Have a lovely half term!

Information for Parents

24th October—Half Term
31st October—INSET Day
4th November—Individual Photos
9th November—Junior Citizen Trip
