

Learning Highlights

Wow—what a week.

On Monday the class headed off to the McLaren Technology Centre for the recording of BBC Terrific Scientific's Live Lesson on forces. They were part of the audience during the recording and answered questions and took part in experiments linked to forces learning. The whole class was amazing and a real credit to themselves and the school. We are so proud of them all!

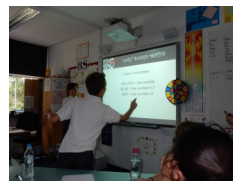

This is the link to the lesson and there are also some extras to watch too!

Issue No 6 Summer Term
 23/6/2017
 01932 842785

On Tuesday the whole school took part in a Sponsored Bounce organised by the school council. The children all had great fun on the bouncy castle raising money for White Lodge, British Heart Foundation and Ongar Place School.

Thursday the class went to JHS for a maths lesson. "It was good because we played a game and it was fun!" said Amber.

Star of the Week.

Another week where it is too difficult to choose just one star of the week. The whole class have been awesome and I have had such lovely reports of their attitudes and behaviour from places they have visited. Well done year 6!

Information for Parents

26th June—Halfords Workshop
