

Learning Highlights

Last Friday we were really lucky to have BAE Systems with the Royal Navy and RAF come to school with their roadshow. It was a fascinating show where we learnt all about the work of engineers and took part in some incredible experiments. The voice controlled robot was 'so cool!' They showed us how important maths is even the most fun experiments.

Issue No 6 Summer Term
25th May 2018
01932 842785

Olivia

The children have now all been given their parts for our production. Over half term, please help your child to start learning their lines and getting into character.

Well done to the star of the week—Brooke. She has worked really well as part of a group to make a board game and has continued to smile all week. Well done Brooke.

Information for Parents
