

## Learning Highlights

Another busy week. The children have been

creating fact files about 'The Splats' who live on Dragon Island. We have been focusing on editing and improving our own work.

In science we have been finding out about microorganisms. This week the children have tried to find out the affects of heat on the action of yeast.

Our maths this week has been revising our knowledge of time. The children have looked at bus and train timetables and tried to calculate journey times including using the 24 hour clock. We have also had fun challenging ourselves with Countdown.

## Resilience Training

We have recently started thinking about transition to secondary school. As a class we are working through a programme that has been written by the Eikon charity called 'Smart Moves.' The children are really enjoying it and hopefully we will address some of their worries about transition. For more details please see the attached letter from Eikon.

## Star of the Week.

Star of the week this week goes to Mike. He has worked really hard and learnt many of his words for the production and is really getting into character. Well done Mikey.

## Information for Parents

29th May—Half Term  
6th June—French Day  
8th June—Polling Day  
19th June—Trip to McLaren  
13th and 14th July—Year 5 and 6 Production
